We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor:

Compaint from the use of these Bitters, the patient constantly gains strength and vigor; a fact worthy of great consideration. They are pleasant in taste and smell and can be taken by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

* Scott's Weekly,* one of the best Literary papers published, said, Aug. 25—

* Dr. Hoghand's German Bilters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience: the salutary effect they have upon weak systems.'

The Philadelphia Saturday Gazette, the hest family newspaper published in the United States The editor says of Dr. Hoofland's German Bilters.

The editor says of Dr. Hooftand's German Billers.

'It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hooftand's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself.'

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the three last years, and the strongest testimony in its favor is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other dostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

It acts specifically upon the atomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. DIGESTIVE FLUID,

AGI OF TIP. ON anny hadded the Aging to Aciding, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa. This is a truly wonderful remedy for Indigestion, Dispeguia, Jaundice, Liver Compdaint, Constipation and Deblity, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

IJT Half a teaspoonful of Presin, infused in water, will digest or dissolve Fire Pounds of Rosat Boef in about 2 hours, out of the stomach. PEPSIN is the chief element, or Great Digesting Principle of the Sastric Juice—the Solvent of the Food, the Purifying, Preserving & Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid precisely like the natural Gastric Juice in its Chemical powers, and furnishing a Complete and Perfect Substitute for it. By the said of this preparation the pains and evils of Indigestion and Dispopsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing carse of bebility, Emacation, Norvous Decline and Dyspeptic Consumption, supposed to be on the vorge of the grave. The scientific evidence upon which it is based in the highest degree curious and remarkable. Scientific Evidence.

Baron Licitiz in his celebrated work on Animal Chemistry asys: 'An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, an meat and oggs, will be softened, changed and digested, just in the same manner as they would be in the human stomach.'

changed and digested, just in the same maner as they would be in the human stornach.*

Dr. Combt, in his valuable writings on the Physiology of Digestion, observes that 'a dimination of the due quantity of the Gastrie Juice is a prominent and all-prevailing cause of Dyspessis;' and he states that a distinguished processor of medicine in London, who was severely afflicted with this complaint, finding every thing cles to fail, had recourse to the Gastrie Juice obtained from the stomachs of living animals, which proved completely successful.

Professor Dungtians, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastrie Juice obtained from the living human stonach and from animals, are well known. 'In all cases,' he says, 'digestion occurred as perfectly in the artificial as in the natural digestions.'
